INDEX

INDEX TO VOLUME 26

Castellano, M., Monoids on a Möbius band.....111
Castellano, B., Compact automorphic actions on an n-dimensional monoid with an (n-1) dimensional group of units.....237
Čupona, G., Vector valued semigroups..... 65
Dorea, Chang C.Y., A semigroup charaterization of the multiparameter Wiener process.....287
Ehrenfeucht, A., and G. Rozenberg, On the size of the subword complexity of square-free DOL languages.....215
Hansel, G., et J. P. Troallic, Points de continuité à gauche d'une action de semi-groupe...205
Hunter, R.P., Some remarks on subgroups defined by the Bohr compactification 125
Imaoka, T., see Yamada, M.
Koch, R.J,, Comparison of congruences on regular semigroups.....295
Madison, B.L., T.K. Mukherjee, and M.K. Sen, Periodic properties of groupbound semigroups II.229
Martynova, T.A., The groupoid of O-reduced varieties of Semigroups (II).....249
Mills, J.E., Matrices of bisimple regular semigroups...117
Mitsch, H., Semigroups and their lattice of congruences 1
Mukherjee, T.K., see Madison, B.L.
Munn, W.D., On the singular ideals of inverse semi-group algebras.....375
Numakura, K., On the existence of compact-open prime ideals in compact totally disconnected semigroups.....383
Open Maths Problems Computer Competition.....390
Pastijn, F., Idempotent distributive semirings II.....151
Pfeifer, Dietrich, A semigroup-theoretic proof of Poisson's limit law.....379
Ponizovskii, I.S., An example of a semiprimative algebra.....225
Putcha, M., Idempotent cross-sections of J-classes.....103
Rodé, G., Differentiability of a convex semigroup on $\mathbb{R}^m$.....317
Rozenberg, G., see Ehrenfeucht, A.
Saito, T., The orderability of regular semigroups.....349
Schweigert, D., On varieties of clones.....275
Sen, M.K, see Madison, B.L.
Spehner, J.C., Sur la classification syntaxique.....323

Thérien, D., Sur les monoides dont tous les groupes sont resolube 89
Troallic, J.P., see Hansel, G.
Trotter, P.G., Projectives in inverse semigroups.....167
Trueman, D.C., Fundamental preorders and partial orders on completely [0] simple semigroups.....139
Van, D.L., Sous-monoide et codes avec des mots infinis. 75
Weinert, H.J., On idempotent semifields and a paper by H. Hutchins.....387
Wong, J.C.S., Left thickness, left amenability and extreme left amenability.....307
Yamada, and T. Imaoka, Some remarks on the free regular *-semigroup generated by a single element.....191
